

Intelligent spaces. Beautifully connected.

Home automation, architectural lighting and private cinema, brought together with considered system design.

LIGHT / CONTROL / EXPERIENCE

Integration with purpose.

Cross Integration is a UAE systems integrator specialising in home automation, audiovisual technology and turnkey private cinema construction. We bring lighting, climate, entertainment and security together to make buildings easier to enjoy and operate.

Based in Dubai, we serve projects across the UAE: residences, hotels, yachts, commercial properties, government, education, healthcare and retail. Each proposal is shaped around the client brief, property plans, system scope and budget.

DUBAI / UNITED ARAB EMIRATES

01

Considered design

Solutions shaped around the people, architecture and purpose of each space.

02

Connected expertise

One coordinated approach to system design, installation, testing and operation.

03

Lasting support

Maintenance, restoration and practical support throughout the life of the system.

Your home. In harmony.

LIGHTING / SHADING / CLIMATE / ENTERTAINMENT

A central control system connects your home, bringing everyday functions together through touch panels, keypads and remotes.

Whole-home control

Coordinate rooms, schedules and scenes from intuitive interfaces.

Lighting & motorised shading

Set the mood with dimming, switching, curtains and blinds working together.

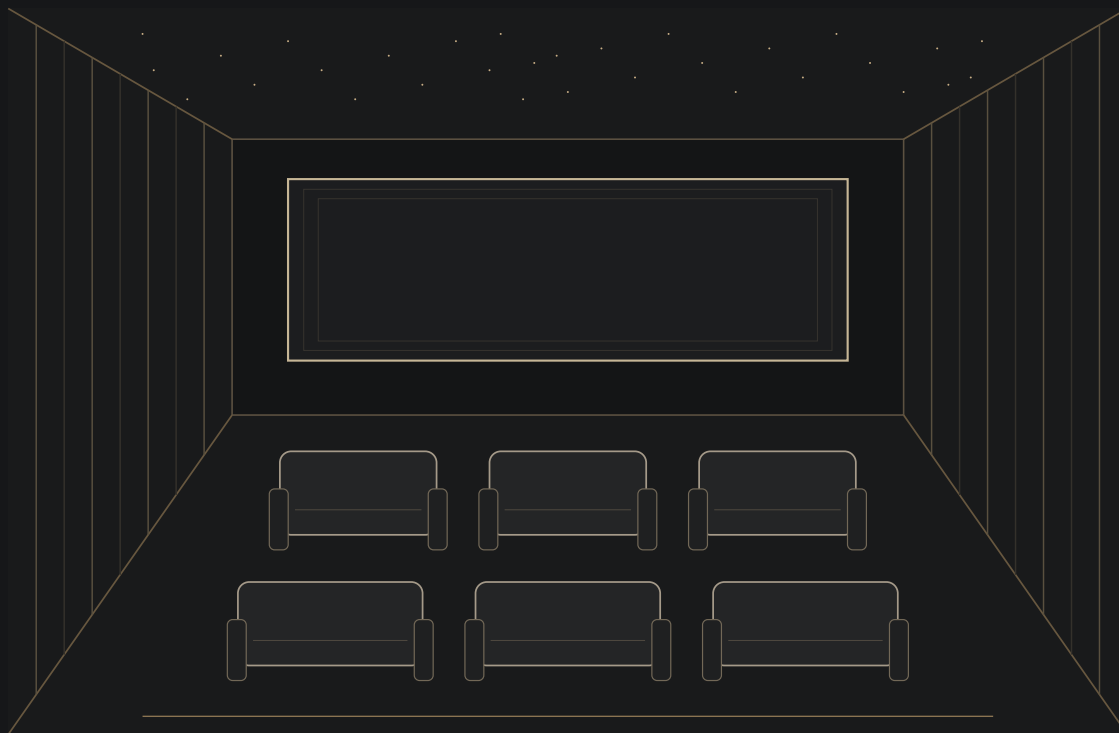

Climate & comfort

Integrate heating and cooling with room use, schedules and temperature.

Security & entertainment

Bring AV and security systems into a coordinated home environment.

The private cinema experience.

Turnkey cinema construction brings picture, sound, acoustics and seating together as one carefully planned space.

Picture, sound & acoustics

Projection, immersive audio and room treatment.

Comfort & control

Seating, lighting scenes and coordinated cinema controls.

Multiroom audio & video

Music, television and shared sources throughout the property.

Architectural AV integration

Custom speakers, screens, lifts and mounts coordinated with the interior.

One integration partner.

01 Whole-home automation

Central control, keypads, touch panels and remotes.

02 Lighting control

Dimming, switching and personalised lighting scenes.

03 Motorised shading

Curtains and blinds integrated with room controls.

04 HVAC & climate control

Coordinated heating, cooling and room comfort.

05 Audio & video distribution

Music, television and shared sources across rooms.

06 Private cinema construction

Room design, immersive audio, acoustics and seating.

07 Speakers, screens & lifts

Custom speakers, projection screens, lifts and mounts.

08 Security & access control

CCTV, intrusion alarms, intercom and access systems.

09 ICT & structured cabling

Wired networks, Wi-Fi, fibre and IT infrastructure.

10 Video conferencing

Meeting, presentation and collaboration systems.

11 Room booking systems

Integrated meeting-room scheduling solutions.

12 Guest room management

GRMS for hotel rooms and suites.

13 Custom switches & sockets

Bespoke controls, sockets, switches and enclosures.

14 Professional AV & broadcast

Audiovisual and broadcast technology integration.

15 ELV & LV consultation

System planning and technical design coordination.

16 System subcontracting

Integrated ELV installation for new-build projects.

17 Project management

Installation coordination, testing and commissioning.

18 Maintenance & restoration

Existing-system support, repairs and programming.

Expertise at every stage.

01

Consultation

System planning before installation.

- Complete ELV and LV system consultation
- Network infrastructure and private cinema design
- Project management and technical coordination

02

Integration

Coordinated systems, delivered on site.

- Lighting, HVAC, shading and AV integration
- Cinema, security, access and structured cabling
- Installation, testing and commissioning

03

Maintenance

Support for the systems you depend on.

- Restoration and maintenance of existing installations
- Support where the original integrator is no longer available
- Engineering and programming support; 24/7 arrangements where required

Selected for your project.
